Company Profile

Qingdao Conston Medical Technology is a medical device manufacturer which produces high value medical consumables belongs to MuYe Group.

We are committed to R&D, production and sales of surgical medical devices. We have experienced research team. On the basis of familiarity with existing technology, actively innovating and constantly seeking technological breakthroughs. Introduce foreign advanced technology and develop high level products. By introducing foreign advanced technology and developing high-level products, we have won many national patents and high-tech enterprises titles. Under the premise of ensuring the quality, we can meet all the individual requirements and production standards of our customers. We have standard factory buildings and complete supporting facilities. The company has 10000 class clean workshop and is designed and built according to GMP standard, there are injection molding workshop, water treatment room, machining workshop, sterilization workshop. We have the international advanced level of injection molding machine, CNC lathe, biochemical incubator, gas chromatograph and other equipment and instruments.

Conston will make full use of the existing product advantages, quality advantages, combined with excellent technical strength, innovation as the basis for development, casting industry brand. It has become a first-class medical device enterprise integrating R&D, production and sales. Conston escorts everyone's health!
